Heart Working Properly Again

Rich Cox • I am 64 years old, and have been drinking alkaline ionized water for the last 12 months. I was very encouraged by what I first heard about the water. I know that sometimes the hype doesn't always equal reality, but in my case it wasn't hype.

This water is what it was touted to be. It's the closest thing to the fountain of youth.

When I began to drink the water, my mental clarity improved and I slept more soundly. My digestion and elimination systems have also improved dramatically. I don't feel bloated anymore because everything moves well through my system.

R.C.'s experience from drinking *Alkaline Antioxidant Water*. He's now enjoying...

- **Mental** clarity
- **Sleeping** more soundly
- Dramatic improvement with **digestion & elimination**
- No more **bloating**
- Normalized **blood pressure**
- One third of the **heart** was not working due to scar tissue.

Alkaline Antioxidant Water has been my **fountain of youth** reversing my above maladies.

Continued on Page 2 of 2

Prior to drinking the alkaline antioxidant water, my blood pressure was 138 over 85. After drinking it, my blood pressure went down to 122 over 72.

I also had serious heart issues for the past 10 years. I had a coronary infarction and was later diagnosed with an ejection fraction of 15 to 20 percent. One third of my heart wasn't working because it had been damaged by scar tissue.

After I started drinking the alkaline antioxidant water, my heart doctor was so impressed that he now drinks the water too.

Alkaline antioxidant water has transformed my

life and has taken me to a whole new level of health. It's the most important choice for my health that I've made.

If you're looking for the fountain of youth, look no farther than alkaline antioxidant water.
